€29,900
Net price

Former Swiss ambulance · travel & expedition conversion · V6 · 5 t

VEHICLE ID

PRT-CONV-2014-01

MILEAGE

approx. 275,000 km

DRIVE

4x4

ORIGIN

Switzerland

FIRST REGISTRATION

03/2014

ENGINE

3.0 l V6 · 190 HP

GVW

5,000 kg

USE

Travel / expedition / special-purpose

CONCEPT

Former Swiss emergency ambulance converted into a deliberately simple and flexible travel vehicle while retaining the robust ambulance body and technical infrastructure. Not a conventional motorhome: no fixed kitchen block, water system, shower or permanently installed conventional camper interior.

ENERGY & ELECTRICAL

Approx. 800 W solar (2 × 400 W) Victron EasyPlus inverter/charger Victron SmartShunt MPPT charging 230 V land power 230 V sockets

COMFORT & EQUIPMENT

Eberspächer parking heater Rear air suspension Electric awning Air conditioning front and rear Rear-view camera Original ambulance storage furniture

TRAVEL CONVERSION

Simple removable transverse bed Large ambulance body Roof hatch Multiple access doors Excellent basis for self-build, expedition or special-purpose conversion

SERVICE HISTORY

Documented service history from professional use. A recent major maintenance visit included replacement of both front control arms; documentation is available.
