Stryker Power-LOAD prepared

CURRENT STATUS

Engine replacement and DPF renewal are currently being clarified/finalised. The advertised configuration and price are based on completion of this planned work.

STRYKER POWER-LOAD

No conventional stretcher table is installed. The ambulance is prepared for the Stryker Power-LOAD system. A used Power-LOAD unit can be supplied as an option.

VEHICLE BASIS

Same basic vehicle and ambulance type as PRT-RTW-2020-01: Mercedes-Benz Sprinter 519 CDI 4x4 with original ambulance body by German specialist manufacturer C. Miesen .

DETAILS & DOCUMENTATION

DOCUMENTATION

Documentation for the replacement engine, Mercedes warranty and new DPF will be added to the vehicle file once the work has been completed.

EU IMPORT & EXPORT

Customs clearance, EU import, German full inspection documentation, export registration, insurance and onward transport can be arranged.

Note: Current photos show the identical vehicle type. Actual vehicle photos will follow.
